

The following contractors or vendors (listed alphabetically) have demonstrated their interest and ability in helping businesses complete energy-efficient lighting retrofits and apply for funding from LIGHTENUP.

Platte River Power Authority's LIGHTENUP provides cash incentives for energy-saving lighting retrofits. An application must be submitted to Platte River and approved *before* the retrofit is begun. The program is open to all commercial electricity customers of Estes Park Light & Power (Town of Estes Park), Fort Collins Utilities (City of Fort Collins), Longmont Power & Communications (City of Longmont), and Loveland Water and Power (City of Loveland).

**Customers may work with any vendor or contractor and are not limited to those on this list.** This list is simply intended as a starting point for customers without a prior relationship with a vendor or contractor. Customers are encouraged to solicit bids from two or more companies.
